

Challenge #1: Goal

My goal about my website is to create a portfolio. The portfolio is about myself and how to become an E-commerce website designer. Inside the website is what is ecommerce website. How to become a web designer. How to create a website. Also, more information about web designs and more.

There are product examples that are link in real shops and video tutorials. Lastly, my personal information and contact. Also, services and other information to contact in case of more information and ideas.
